

Federal Budget update 2020/21

How the Budget may affect business owners

The announcements in this update are proposals unless stated otherwise. These proposals need to successfully pass through Parliament before becoming law and may be subject to change during this process.

What you need to know

- › The Budget is forecast to result in a record deficit peaking at \$966 billion (44% of GDP) in 2024. However, thanks to record low interest rates, this comes with only a minimal increase in interest payments.
- › **Jobs** are the Government's primary focus – creating jobs and keeping jobs, with the introduction of the JobMaker plan (including a \$100-\$200 per week hiring credit for eligible employees/employers and reimbursement of up to 50% of an apprentice's training) and the JobTrainer fund.
- › **Tax cuts** will play a major role and, unlike other economic downturns, there will be no deficits tax on high income earners. Stage 2 personal income tax cuts are to be brought forward 2 years, backdated to 1 July 2020, with tax savings for around 7 million Australians of \$2,000 or more.
- › **Business Owners** will be able to carry back tax losses from the 2019/20, 2020/21 and 2021/22 financial years to offset previously taxed profits in the 2018/19 or later financial years. This, coupled with the Instant Asset Write-off provisions and expanded access to tax concessions for small business, is calculated to generate spending and create jobs.
- › **Aged care** gets a boost with 23,000 additional home care packages. Great news for the 100,000 Australians on the waiting list for these packages.
- › **Superannuation** measures called 'Your Future, Your Super' include a stronger focus on reducing fees and costs by increasing transparency and reducing the incidence of individuals with multiple super funds.

- › **Social security** – aged pensioners, veterans and eligible concession card holders will get \$250 this year and another \$250 early in 2021. However, there is no mention of extending JobSeeker.

Overview

The 2020 Budget is all about jobs, jobs and spending to make more jobs. We already have JobSeeker and JobKeeper, and now we have JobMaker and JobTrainer.

Each announcement the Treasurer made was translated into jobs. Tax cuts for 11 million taxpayers equals 50,000 new jobs; expanding the instant asset write-off and the carry back of current losses is another 50,000 jobs.

Bringing forward the Stage 2 personal income tax cuts were the order of the day, and there will be no increases in tax in order to pay for spending. So unlike other economic downturns, there will be no deficits tax on high income earners.

One key theme throughout the Budget, is that the Government is keen to improve outcomes for young people. We know this recession has hit young people hard and many have taken early release of their super.

Eligible companies can carry back tax losses from the 2019/20, 2020/21 and 2021/22 financial years to offset previously taxed profits in the 2018/19 or later financial years. This will generate a refundable tax offset in the year in which the loss is made.

Businesses with an aggregated annual turnover of less than \$10 million can deduct the balance of their simplified depreciation pool at the end of the income year while full expensing applies. The provisions which prevent small businesses from re-entering the simplified depreciation regime for five years if they opt-out will continue to be suspended.
